

Quicklink TX Skype-in-a-box

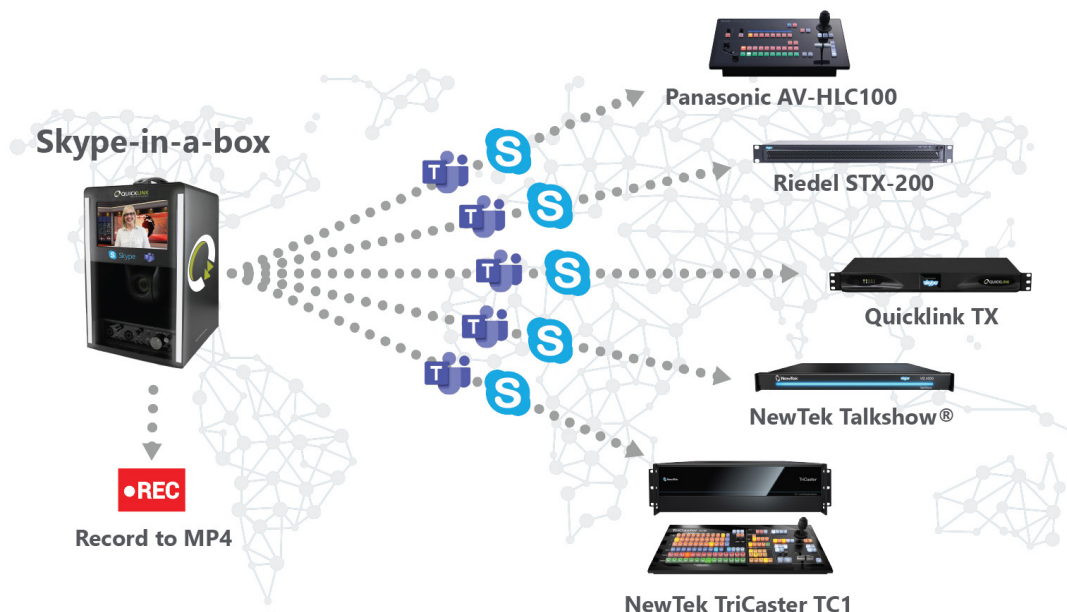

Connect to any global broadcaster in studio-grade quality. Instantly go live from a single button-click compact unit, no booking of production crews or complex equipment required. With this all in one compact unit you can look and sound more professional even from your own home.

Highlights

- ▶ Dedicated broadcast hardware incorporating the Skype TX broadcast software supporting up to 5 Mbps HD quality
- ▶ Automatic Artificial Intelligence using the inbuilt Pan, Tilt and Zoom camera creates the perfect head and shoulders framed shot
- ▶ Inbuilt LED Lighting ensures that the shot is optimised for clarity
- ▶ Simple setup, plug-and-play with no technical expertise required
- ▶ Small enough to fit into a carry case, lightweight with rugged allow housing

Broadcast quality Skype & Teams video calling

Allow your expert opinions to be heard on a global scale. Connect to any international broadcaster!

Look and sound professional on-air. The Skype-in-a-box incorporates a high-quality PTZ camera with automatic shot framing.
